KOUMASSI Koffi Pierre Damien

AI Engineer & Full-Stack Developer

koffi-pierre-damien-koumassi.vercel.app/ +212 6 58 80 93 18
kkoffipierredamienpe@gmail.com Casablanca, Morocco

Professional Profile

Versatile engineer with expertise in **Artificial Intelligence**, **full-stack development**, and **data analysis**. Proven experience building intelligent systems, scalable web applications, and automated trading solutions. Proficient in Python, React, TensorFlow, PyTorch, and cloud deployment. Seeking to leverage technical versatility in innovative software and AI projects within large enterprises and R&D centers.

Education

- **Engineering Degree – Artificial Intelligence & Computer Engineering** *Oct 2021 – Jul 2026*
  National School of Arts and Crafts (ENSAM), Casablanca

Professional Experience

- **AI/ML Developer Intern** *Jul 2025 – Sep 2025*
  Jaag Advisory, Casablanca, Morocco
  – Developed automated trading robot using **Python, MT5, and Online Learning** for financial strategy execution
  – Built interactive **React dashboards** for real-time performance monitoring and analytics visualization
  – Implemented machine learning models for pattern recognition and predictive analysis
- **Full-Stack Developer** *Jul 2024 – Sep 2024*
  Afrismart Consulting SARL, Casablanca, Morocco
  – Designed and developed matching platform
  – Optimized performance through database indexing and frontend caching strategies

Key Technical Projects

- **Smart Safe City – Intelligent Urban Security** *(Deep Learning, Computer Vision, IoT)*
  – Developed CNN models for urban incident detection
  – Integrated real-time IoT sensors with mobile alert system for immediate incident response
  – Fine-tuned pre-trained models for violence, fire, and accident recognition
- **Intelligent Attendance Management System** *(Machine Learning, Computer Vision)*
  – Facial recognition system
  – Deployed production solution with Streamlit and real-time visualization dashboard
- **Microservices Platform – Distributed Architecture** *(Spring Boot, gRPC, Docker)*
  – Java microservices architecture with gRPC communication and Docker containerization

Technical Skills

AI & Machine Learning:
TensorFlow, PyTorch, Scikit-learn, Keras, River, CNN, RNN, Computer Vision, Fine-tuning

Web & Mobile Development:
React, Angular, Laravel, FastAPI, HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap, Android Studio, Flutter

Backend & APIs:
Python, PHP, Java, C#, RESTful APIs, Microservices Architecture

Data Science & Analytics:
Pandas, NumPy, Matplotlib, Seaborn, Power BI, Feature Engineering

Databases:
MySQL, PostgreSQL, SnowflakeSQL, Oracle, MongoDB, Database Design, Query Optimization

DevOps & IoT:
Docker, Git, Streamlit, Node-RED, MQTT

Languages

French: Native
English: Elementary

Leadership

GBU Sidi Othman Manager
2022–2024
Team management, events
